DARATAJHIZ.COM

DARA TAJHIZ BRAND SPECIALIZES IN THE FIELD OF MEDICAL GLOVES AND ADHESIVES IN THE DOMESTIC AND FOREIGN MARKETS, AND BY APPLYING MANAGEMENT KNOWLEDGE AND CLOSE COOPERATION WITH THE GROUP OF IRANIAN MANUFACTURERS, IT IS COMMITTED TO USING TECHNICAL KNOWLEDGE AND THE LATEST SCIENTIFIC ACHIEVEMENTS IN THE WORLD TO SUPPLY AND MEET THE NEEDS OF MEDICAL CENTERS.

IN THE PROCESS OF SUPPLYING THESE PRODUCTS, DARA TAJHIZ BRAND CLOSELY MONITORS THE QUALITY CONTROL PROCESS OF THIS SUPPLY PROCESS USING EXPERIENCED EMPLOYEES AND IN ACCORDANCE WITH GLOBAL STANDARDS.

THE GOAL OF OUR GROUP IS TO MEET THE NEEDS OF CUSTOMERS IN THE FIELD OF MEDICAL EQUIPMENT SO THAT WE CAN TAKE AN EFFECTIVE STEP IN SATISFYING THEM.

## SURGICAL GLOVES

ALL TYPES OF SURGICAL GLOVES DIFFER FROM EACH OTHER IN TERMS OF RESISTANCE, FLEXIBILITY AND COMFORT, AND POLYMER AND SILICONE MATERIALS ARE USED IN THEIR INNER LAYER. SURGICAL GLOVES ARE A SPECIAL TYPE OF MEDICAL GLOVES USED FOR SURGERY AND SENSITIVE MEDICAL APPLICATIONS AND EXAMINATIONS. THESE GLOVES CAN BE MADE WITH DIFFERENT MATERIALS SUCH AS LATEX, NITRILE, OR POLYMER, AND THEY ARE AVAILABLE IN POWDER, POWDER-FREE, AND LOW-POWDER TYPES AND IN SIZES 6-6.5-7-7.5-8

## ORTHOPEDIC GLOVES

THIS GLOVE IS MULTI-LAYERED AND VERY THICK AND IS USED FOR ORTHOPEDIC SURGERIES DUE TO THE IMPORTANCE OF STERILE ENVIRONMENT, LONG SURGERY TIME AND ALSO THE USE OF HEAVY TOOLS DURING ORTHOPEDIC SURGERY. OF COURSE, SINCE THIS TYPE OF SURGERY REQUIRES HIGH PRECISION AND SENSITIVITY, ORTHOPEDIC GLOVES MUST PRESERVE THE SURGEON'S SENSE OF TOUCH. THIS DESK IS AVAILABLE IN SIZES 7-7.5-8-8.5

## ANTI-HIV GLOVES

THIS GLOVE HAS THREE LAYERS, AND ONE LAYER PROTECTS THE GLOVE FROM TEARING OR PIERCING DUE TO CONTACT WITH A CONTAMINATED NEEDLE OR RAZOR. USING ANTI-AIDS GLOVES IS A VERY EFFECTIVE AND RELIABLE METHOD TO PREVENT CONTRACTING THIS DISEASE IN MEDICAL AND ESPECIALLY LABORATORY ENVIRONMENTS. THIS TYPE OF GLOVE IS VERY IMPORTANT BECAUSE THE CONCERN OF CONTRACTING AIDS WHILE TREATING PATIENTS IS ONE OF THE CONCERNS OF THE MEDICAL STAFF.

## LATEX GLOVES

LATEX GLOVES ARE MADE OF NATURAL RUBBER AND FROM A TREE CALLED HEVEA BRASILIENSIS. THIS MATERIAL HAS HIGH RESISTANCE AND FLEXIBILITY AND IS VERY PRACTICAL AND POPULAR. THESE GLOVES COMPLETELY STICK TO PEOPLE'S HANDS AND ACT LIKE A SECOND SKIN, AND FOR THIS REASON, THERE ARE NO RESTRICTIONS FOR THE USER, AND THEIR USE IS SUITABLE FOR DOING ALL THE TASKS THAT REQUIRE HIGH PRECISION. THESE GLOVES ARE USUALLY USED TO PROTECT HANDS IN INDUSTRIAL AND MEDICAL WORK. THIS TYPE OF GLOVES IS AVAILABLE IN .SIZES XXL-XL-L-S-XS WITH OR WITHOUT POWDER

## NITRILE GLOVES

NITRILE GLOVES ARE MADE WITHOUT THE USE OF LATEX AND USING SYNTHETIC MATERIALS AND DO NOT CAUSE ANY SKIN SENSITIVITY. IN ADDITION, COMPARED TO LATEX GLOVES, THEIR RESISTANCE TO TEARING OR PERFORATION AND CHEMICAL CORROSION IS ALMOST THREE TIMES HIGHER, BUT THE ELASTICITY AND FLEXIBILITY ITS ACCEPTABILITY IS LESS. THESE GLOVES ARE AVAILABLE IN POWDER AND NON-POWDER TYPES AND IN SIZES .6-6.5-7-7.5-8

THE MOST IMPORTANT APPLICATIONS OF NITRILE GLOVES ARE IN LABORATORY ENVIRONMENTS AND WORKING WITH .MEDICAL, HEALTH AND EVEN COOKING CHEMICALS

## NYLON OR FREEZER GLOVES

NYLON GLOVES ARE ONE OF THE MOST WIDELY USED DISPOSABLE GLOVES IN HOTELS, KITCHENS, HEALTH CENTERS AND HOSPITALS. THESE GLOVES HAVE PARTIAL PROTECTION AND ARE MADE IN THIN TO THICK VARIETIES. DISPOSABLE NYLON GLOVES ARE NON-STERILE AND POWDER-FREE AND COST LESS THAN OTHER GLOVES. WHEN USING THIS MODEL OF GLOVES, IT SHOULD BE NOTED THAT NYLON GLOVES ARE NOT .RESISTANT TO VIRUSES

## LEUKOPLAST GLUE

LEUKOPLAST GLUE DOES NOT HAVE ELASTICITY AND HAS A FIRM TEXTURE. THIS GLUE HAS TWO LAYERS, THE SURFACE AND OUTER LAYER IS MADE OF VISCOSE FABRIC OR LINEN, AND THE SIDE THAT STICKS TO THE SKIN OR DRESSING CONTAINS ZINC OXIDE, WHICH IS A NON-MINERAL COMPOUND INSOLUBLE IN WATER, AND THIS FEATURE MAKES THIS GLUE HIGHLY RESISTANT TO ESPECIALLY AGAINST OXIDIZERS SUCH AS FIRE, LUBRICANTS OR VARIOUS OINTMENTS. THIS GLUE ALLOWS THE SKIN TO BREATHE AND UNLIKE ITS NON-ELASTIC STATE, IT HAS HIGH FLEXIBILITY AND RESISTANCE. YOU DON'T NEED TO USE SCISSORS TO USE THIS GLUE AND FIX DRESSINGS, ANGIOKETS, OR FIX PARTS OF THE BODY AND SIMILAR THINGS. THIS GLUE IS AVAILABLE IN 5\*9 AND 2.5\*9 SIZES

## HYPOALLERGENIC GLUE

THIS GLUE DOES NOT CONTAIN ALLERGENS AND IS ONE OF THE SAFEST GLUES. THESE TYPES OF ADHESIVES ARE MADE IN THE FORM OF PAPER OR FABRIC STRIPS, AND BECAUSE THEY DO NOT CONTAIN NATURAL LATEX FIBERS, THEY CAUSE LESS SKIN IRRITATION COMPARED TO PLASTIC STRIPS OR BANDAGES. ALSO, AFTER USING THIS GLUE AND WHEN REMOVING IT FROM THE SKIN, THERE IS NO STICKY RESIDUE LEFT. THESE ADHESIVES ARE AVAILABLE IN 1.25 X 9 AND 2.5 X 9 SIZES

## GLASS HYPOALLERGENIC GLUE (TRANSPARENT

( THIS ANTI-ALLERGIC GLUE WITH STRONG ADHESION HAS ENOUGH PORES TO DRAW AIR TO THE WOUND AREA, WHICH IS THIN AND FLEXIBLE AND EASY TO CUT, AND IT IS USED FOR DRESSING WOUNDS AFTER SURGERY AND .SUTURE WOUNDS

## ■ WICKER GLUE

ROLLY RATTAN ADHESIVE IS A TYPE OF NON-WOVEN MEDICAL ADHESIVE WITHOUT LINT, MADE OF NON-ALLERGENIC MATERIALS AND USED TO FIX DRESSINGS OF WOUNDS AND INJURIES ON THE BODY SURFACE, AND HAS MANY SMALL PORES FOR AIR AND WATER VAPOR TO PENETRATE FOR BETTER BREATHING OF THE SKIN AT THE WOUND SITE. THIS GLUE HAS SIGNIFICANT FLEXIBILITY AND THE REASON FOR ITS FLEXIBILITY IS OFTEN USED FOR PARTS OF THE BODY THAT HAVE A LOT OF MOBILITY. IN ADDITION, STRAW GLUE CAN ALSO BE USED DURING PHOTOGRAPHY DUE TO THE PASSAGE OF X-RAYS, AND FOR THIS PURPOSE, THERE IS NO NEED TO REMOVE THIS GLUE.

## ■ READY DRESSING ADHESIVE

THIS GLUE, WHILE HAVING HYPOALLERGENIC AND STERILE PROPERTIES, IS USED TO FIX DRESSINGS OR BANDAGES. AND BY USING A SPECIAL CENTRAL PAD AND NON-WOVEN FIBERS AS WELL AS A SOFT PAPER COVER, IT MAKES FOR EASY BONDING AND ABSORBS BLOOD AND WOUND SECRETIONS WELL. IN ADDITION, DUE TO HAVING A POROUS SURFACE, IT CAUSES THE EXCHANGE OF AIR AND OXYGEN VAPOR AND THUS PREVENTS THE COVERED AREA FROM SWEATING.

## GLUE STITCHES

THIS MEDICAL ADHESIVE IS USED FOR EMERGENCY SITUATIONS AND TO CONTROL THE BLEEDING OF WOUNDS AND CUTS. SUTURE ADHESIVE IS USED IN FORMS SUCH AS LIQUID OR ONE-PIECE ADHESIVES AND TAPE ADHESIVES IN MEDICAL CENTERS AND OPERATING ROOMS. THIS GLUE IS COMPLETELY RESISTANT TO WATER, HIGH TEMPERATURE AND ABRASIONS, AND REDUCES SCARS AND MARKS LEFT BY STITCHES. SUTURE GLUE CAN BE USED FOR ALL AGES AND EVEN FOR SMALL AND DEEP WOUNDS OF CHILDREN

## ANGIOKET GLUE

ANGIOKET ADHESIVE HAS THE CHARACTERISTICS OF FLEXIBILITY, HYPOALLERGENIC, CENTRAL PAD AND STERILE, AND IS ONE OF THE MOST WIDELY USED MEDICAL ADHESIVES AND IS USED TO FIX ALL KINDS OF INJECTION DEVICES SUCH AS ANGIOKET, TUBE, AND CATHETER. THE HIGH STRENGTH OF ADHESION IN ANGIOKET ADHESIVES PREVENTS THE MOVEMENT OF THE NEEDLE IN THE BODY AND PREVENTS IT FROM MOVING. THIS ADHESIVE DOES NOT PREVENT THE PENETRATION OF AIR AND OXYGEN, AND AS A RESULT, THE COVERED AREA DOES NOT SWEAT. MOST ANGIOKET ADHESIVES ARE AVAILABLE IN TRANSPARENT AND NON-TRANSPARENT SIZES IN DIMENSIONS OF 7.5 X 5 TO 6 X 8 OR 6 X 9.

## Bleeding/injection glue

Blood collection glue is used by people and laboratory personnel after blood collection. The injection glue does not contain allergenic substances and has many pores that can help to relieve and repair the bleeding wound site. The injection glue can also speed up the healing process with the possibility of air flow. In addition, with proper adhesion ability, it completely cares and protects the wound until it heals.

## band aids

Band-aids are used for dressing superficial wounds that do not require stitches or large dressings. Another function of wound adhesives is to bring the damaged parts closer to each other to reattach them.

## waist tape

Waist tape is a health product that is produced in sheets in different sizes and compositions. This adhesive has high adhesion and contains soothing substances that are absorbed through the skin. Back tape is often used to treat and relieve muscle pain in the lower back.

## STERILE DRIP GLUE

STERILE DRIP IN THE DRAPE OF A SURGICAL CURTAIN PROTECTS THE PATIENT'S HEALTH AGAINST BACTERIA THAT IS PLACED ON THE WOUND OR INCISION DURING SURGERY. IT STICKS TO THE EDGES OF THE WOUND AND PREVENTS BACTERIA FROM MIGRATING TO THE EDGES OF THE CUT.

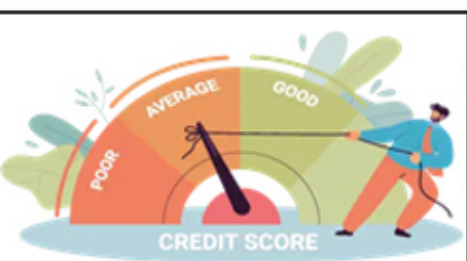

STERILE DRIP REDUCES THE POSSIBILITY OF MOISTURE ACCUMULATION UNDER THE SKIN, AND IT IS ALSO POSSIBLE FOR THE SKIN TO BREATHE WITH STERILE DRIP.

## LEAD CHEST GLUE

CHEST LEAD IS AN ADHESIVE THAT IS USED TO TAKE ECG AND ALSO IN THE INTENSIVE CARE UNIT TO ESTABLISH A CONNECTION BETWEEN THE DEVICES AND THE PATIENT'S BODY.

DARA TAJHIZ TRADING COMPANY IS A YOUNG, DYNAMIC, CREATIVE COMPANY THAT IS GROWING AND DEVELOPING, AND IN ORDER TO PROVIDE HIGH QUALITY GOODS AT REASONABLE PRICES THROUGH THE BENEFIT OF EXPERIENCED STAFF, AND WITH THE AIM OF PROVIDING NEW AND EFFECTIVE SERVICES ON THE MARKET, IT HAS ESTABLISHED ITSELF IN THIS FIELD. AND HAS PUT HONESTY, SINCERITY, CREATIVITY AND CUSTOMER ORIENTATION AT THE TOP OF HIS .LIST FROM THE VERY BEGINNING THIS COMPANY IS TRYING TO RESPOND AND MEET ALL THE NEEDS OF ITS CUSTOMERS WITH ITS EXTENSIVE AND INTIMATE RELATIONSHIPS WITH DOMESTIC AND INTERNATIONAL PREMIUM MANUFACTURERS AND DISTRIBUTORS, AND BY PROVIDING QUALITY PRODUCTS AT A VERY REASONABLE PRICE, DELIVERY IN THE SHORTEST POSSIBLE TIME. AND PROVIDING THE BEST AFTER-SALES SERVICES TO SATISFY OUR ESTEEMED CUSTOMERS IN THE MOST .FAVORABLE WAY POSSIBLE
